EVOLVEO StrongPhone X2

Rugged, waterproof phone featuring 3G and WiFi Internet connection support

This phone is for all those customers, who expect their phone to endure far more than ordinary phones available in today's market. It doesn't matter if you are outside, at a construction site, being athletic, in a workshop or on the mountain trip, this phone will never disappoint you.

Waterproof, complying with IP68 Specifications

A highly rugged rubberised body makes the phone a reliable tool for intensive daily use. It also offers the use of two SIM cards at the same time, which can be connected to the Internet via 3G or WiFi. Maximum durability coupled with the outdoor design make this phone a universal solution to use at home, in the workshop, on construction sites, in difficult terrains, in really cold temperatures all the way up to high temperatures and humidity. This phone can handle water, mud, snow, high or low temperatures, dust and rough handling.

Internet - via 3G or WiFi

This phone is the center of your digital travelling needs with a WiFi HotSpot feature allowing you to setup a wireless WiFi network around your phone. Allowing you to share your mobile phone's Internet access with other devices such as your laptop.
